

## **Corvette "Done" List from Feb. 2016 thru Nov. 2016**

- 1) Use rubbing compound, then polish, then glaze, then wax the entire exterior paint finish w/DA polisher...touch up chips
- 2) Replaced fuel tank sending unit
- 3) Replaced fuel filler rubber surround & rubber overflow hose
- 4) Replaced blinker/reverse/stop/parking lamps with LED...added anti-hyper blink relay for blinker LED's
- 5) Replaced dash and center gauge console backlights w/(11) LED
- 6) Replaced interior lights with LED
- 7) Shampooed the carpet front and back
- 8) Replaced top of dash (cracked)
- 9) Replaced left front speaker grill
- 10) Conditioned the leather over 2 month period
- 11) Replaced the fuel gauge
- 12) Replaced the oil pressure gauge
- 13) Replaced the oil sending unit
- 14) Added gauge and center console wood overlay
- 15) Added white gauge kit/overlay...painted gauge needles orange
- 16) Painted black trim around front window
- 17) Painted black trim around back window
- 18) Painted bottom black side skirts
- 19) Replaced interior door sill kick plates
- 20) Replaced upper/lower driver's door hinge/bushings
- 21) Replaced both door seals
- 22) Replaced L/R window seals @ windshield pillar & door windows
- 23) Replaced both T-Top seals
- 24) Installed "removable" sunblock shields on both T-Tops
- 25) Installed new CD/Receiver with Bluetooth and USB
- 26) Replaced cracked clear lens on a/c control
- 27) Replaced a/c compressor

- 28) Replaced a/c drier and orifice tube
- 29) Flushed a/c system and refilled
- 30) Replaced a/c blower fan with larger C4 style
- 31) Replaced a/c heater/blower relay
- 32) Replaced a/c belt, fan belt and alternator-power steering belt
- 33) Replaced upper radiator hose and sleeved in stainless steel braid w/AN style hose fittings
- 34) Replaced lower radiator hose and sleeved in stainless steel braid w/AN style hose fittings
- 35) Replaced all heater hoses and sleeved in stainless steel braid w/AN style hose fittings
- 36) Replaced headlight vacuum hoses & cleaned/lubed actuators
- 37) Replaced distributor cap and rotor
- 38) Replaced spark plugs
- 39) Cleaned/routed nicer the spark plug wires w/new separators
- 40) Replaced water temperature sensor and installed heat resistant silicone tubing on the wire
- 41) Replaced the oil temperature sending unit
- 42) Oil changed twice with new filters
- 43) Replaced air cleaner and added cool air intake styled unit
- 44) Replaced valve covers and gaskets
- 45) Replaced valve cover breather
- 46) Removed exterior rust from brake fluid reservoir & painted
- 47) Added chrome brake fluid reservoir cover
- 48) Replaced windshield washer bottle & hoses/added chrome cap
- 49) Replaced windshield wiper motor
- 50) Removed and cleaned radiator overflow bottle
- 51) Replaced radiator overflow hose and sleeved in stainless steel braid w/AN styled fittings
- 52) Flushed radiator and heater core
- 54) Wire loomed entire engine compartment area
- 55) Replaced thermostat housing...slight leak at O-ring

- 56) Added relay to turn on emergency electric radiator fan when a/c is engaged...to help w/ac cooling in traffic
- 57) Repainted engine
- 58) Cleaned intake manifold with Dremel brushes then treated
- 59) Replaced intake manifold bolts and applied bolt sealant
- 60) Replaced engine vacuum lines and sleeved most in stainless steel braid w/AN styled fittings
- 61) Replaced fuel line from fuel pump to carb and sleeved in stainless steel braid w/AN styled fittings
- 62) Added high quality fuel filter
- 63) Replaced fuel line (chromed extension) between the dual feed carb fittings
- 64) Replaced fuel pressure gauge on extension
- 65) Repainted engine compartment sides
- 66) Installed new cowl area cover and painted
- 67) Removed rust from hood hinges/supports
- 68) Replaced engine compartment light w/LED and loomed the wire
- 69) Replaced fan blower rheostat
- 70) Replaced engine to body ground strap
- 71) Replaced rear ground body strap
- 72) Removed/cleaned/stripped paint and repainted the spare tire cover and mounting hardware...plus reconditioned the spare tire
- 73) Removed 2.25" exhaust/mufflers/catalytic converters & installed new 2.5" exhaust w/CAT delete, H-pipe & Magnaflow mufflers.
- 74) Painted exhaust system w/Eastwood aluminized exhaust paint
- 75) Replaced all exhaust mounting/hanging hardware
- 76) Removed rust from headers
- 77) Replaced paper type (leaking) exhaust manifold gaskets with aluminum ones
- 78) Replaced exhaust manifold bolts
- 79) Removed each tire and polished the rims with Mother's kit

- 80) Removed/treated rust on brake calipers /rotors...then painted
- 81) Replaced rear steel mono-spring with new composite type and replaced both 8" bolts/rubber pads
- 82) Added chrome a/c compressor cover and belt shield
- 83) Added chrome cap to radiator overflow bottle
- 84) Replaced alternator upper/lower brackets
- 85) Removed rust and treated the power steering coupler/area
- 86) Removed old faded hood stripe and installed new one
- 87) Cleaned and lubricated the motorized radio antenna
- 89) Replaced L/R window/inner felt seals & adjusted windows
- 90) Removed both door panels and treated rust inside the doors and lubricated the electric window mechanisms
- 91) Removed/cleaned/repainted the side vents behind the front wheel areas
- 92) Replaced the center a/c vents and the foam surrounds
- 93) Cleaned then treated rust "flash" under the car
- 94) Replaced all fuses on fuse panel with "smart fuse" type that light up when blown
- 95) Replaced driver's sun visor bushing
- 96) Repainted radiator fan blade and treated rusted bolts
- 97) Adjusted hood locks and greased hood release cable
- 98) Replace front spoiler rubber strips
- 99) Replace missing transmission inspection cover
- 100) Calibrate fuel gauge better with appropriate inline resistor
- 101) Repaint oil pan with Chevy orange POR-15
- 102) Polish the windshield some more...still has some scratches
- 103) Treated entire underside with Krown rust proofing
- 104) Add LED string light in back [cove] area for better lighting

## **Corvette "Still To Do" List:**

- 1) Replace tires which are dated 2001
- 2) Install speaker/subwoofer box in back to include applicable amps. I already have [empty] speaker box
- 3) Replace ratty/worn driver's seatbelt
- 4) Order aftermarket [center] armrest in leather
- 5) Clean up/loom wiring at starter...install heat shield for starter
- 6) Replace broken passenger lighted vanity mirror light/lid
- 7) Replace outer window seal/rubber trim for side windows
- 8) Replace short rubber seals between side windows and rear pillars
- 9) Replace transmission fluid...don't know when last changed
- 10) Recalibrate speedometer...shows a little too fast
- 11) Wrap headers
- 12) Replace speedo/tach cluster clear lens...small cracks at edges

## **Corvette "WISH" List...Way, Way in the Future:**

- 1) Replace carpet...include heat/noise barrier material underneath
- 2) Replace carburetor with throttle body type fuel injection unit
- 3) Repaint underside of hood
- 4) Tighten up front suspension with modern aftermarket parts
- 5) Replace interior door panels
- 6) Replace windshield...35 years of tiny spec's & minor scratches
